

How Shipping Errors Threatened **\$10.6M** in Sales and How We Can Recover Them

DataCo Global company

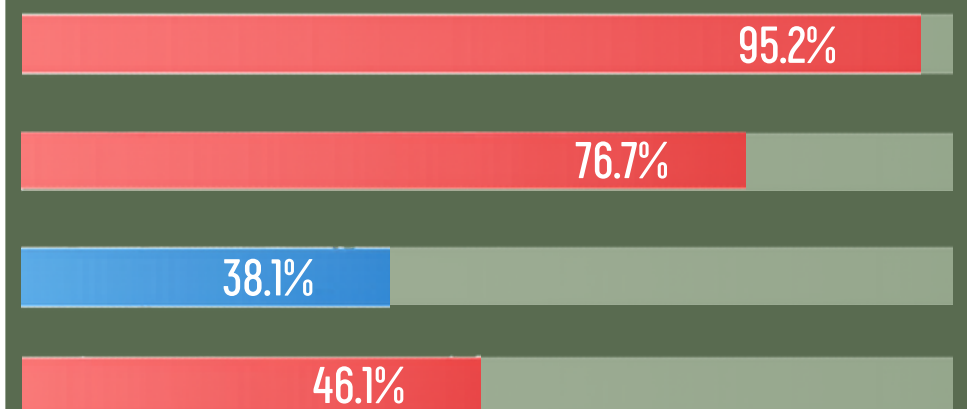

Delivery Efficiency Crisis

Data shows a massive gap between **delivery time promises** and **the actual capacity of the fleet**.

	Shipping_mode	Actual	Scheduled
1	First Class	2	1
2	Same Day	0	0
3	Standard Class	3	4
4	Second Class	4	2

Efficiency Analysis by Shipping Type

[Delay Risk]

54.8% of canceled orders are caused by delays.

95.27% delay rate in **First Class**
(an absolute system failure).

Most Affected Regions

The uniform delays across most regions indicate that the problem starts during the **fulfillment stage in the warehouse** before the shipment even leaves.

	Region	Total Orders	AVG Delay Days	Late Risk %	Actual Late Count
1	Central Asia	184	0.65	55.43	102
2	Central Africa	556	0.64	57.55	320
3	South of USA	1345	0.6	55.99	753
4	South Asia	3335	0.6	55.92	1865
5	Eastern Europe	1292	0.59	55.96	723
6	East Africa	613	0.59	56.77	348
7	Western Europe	10009	0.59	55.79	5584
8	West Asia	2022	0.58	55.98	1132

The Supplier is Prime Suspect

- The Golf Crisis: Categories like **Golf Shoes**, **Golf Bags & Carts**, and **Golf Gloves** record the highest delay rates in the company, reaching **68.58%** in shoes.
- The Tech & Apparel Crisis: Categories like **Cameras** and **Men's Clothing** follow closely with delay rates exceeding **61%**.

	Category Name	Total Orders	Delayed Orders	Delay Rate %
1	Golf Shoes	61	42	68.58
2	Cameras	624	388	62.18
3	Pet Supplies	492	302	61.38
4	Men's Clothing	1075	657	61.12
5	Crafts	484	288	59.5
6	Golf Accessories	1893	1126	59.48
7	Music	434	258	59.45
8	Women's Apparel	423	251	59.34

Conclusion: This concentration indicates that the suppliers responsible for these specific categories are **failing to prepare products on time**, causing the shipment to be delayed at the warehouse level .in the first place

Action Plan (1)

Technical Solutions

Early Warning System

Build a **dashboard** to monitor **Late Risk** in real-time, alerting the operations team before a delay actually occurs.

Preventive Day (Buffer Day)

Add a buffer day to promised delivery times for categories whose supplier-side delay exceeds **60%**.

Re-evaluating 3PL Carriers

Review active contracts and replace external shipping companies if necessary in high-delay regions like **Central Asia**.

Action Plan (2)

Suppliers & Customers

Proactive Compensation

Automatically send a **10%** discount code to the customer the moment a supplier delay is detected, absorbing frustration before they complain.

Priority Handling

Prioritize and fulfill **First Class** shipments during the first half of the day to ensure sufficient delivery time.

Service Level Agreements (SLA)

Impose strict penalties or blacklist suppliers who fail to prepare and hand over orders within **24 hours**.

Expected Measurable Impact

Promised Delivery Accuracy

Current State

on time 45.2%

Post-Solutions

on time 77.3%

Immediate Results:

- Converting **21,130** orders from delayed to on-time.
- Securing **\$10.6M** from cancellation risks.
- Cutting return requests by **50%** in critical categories.

Our problem is not with
shipping itself, **but in the gap**
between what we promise
and what we execute.

Our remedy begins by
making our promises
honest, then improving our
speed progressively.
